

PURPLE ROOM OUR LEARNING SUMMER 2 WEEK 6

Last week was a lovely week in Purple Room. We were donated some colourful balls so we pumped the paddling pool back up and enjoyed our own ball pit.

Mrs Marjan brought in some large pieces of cardboard which the children enjoyed mark making on. They love lying on their tummies and enjoying exploring pens on a larger scale.

Thank you for the donations of plant pots for our Nursery garden. We have enjoyed planting more seeds and have become super gardeners; making sure the plants all have enough to drink in this heat. Our green beans are especially impressive!

We enjoyed a visit to the front garden of school. We enjoyed a story in the reading area and then explored the garden, using our senses to comment on what we noticed. This created a lot of exciting discussion on bees as there were lots attracted to the glorious colours and smells coming from the garden area.

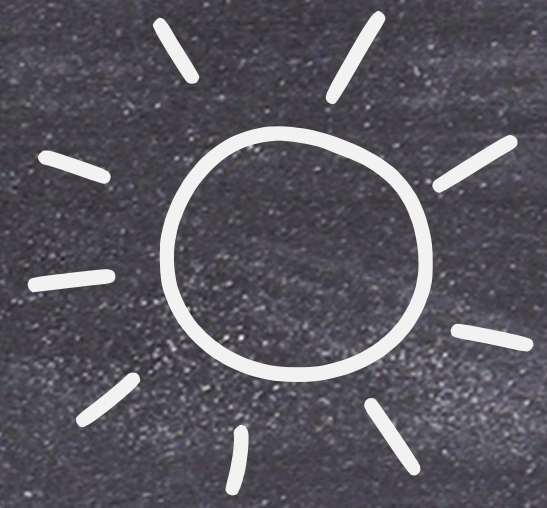

The children helped me to make play dough. We followed the recipe, weighing out ingredients using cups and spoons as measurements. We have then enjoyed lots of play-dough play.

Den building has continued to be popular in our outside play. We put up a canopy to create shade which made for an exciting area outside and then the children continued this interest inside by building with the duplo on a large scale.

The children have enjoyed some transition visits these last few week in preparation for September.

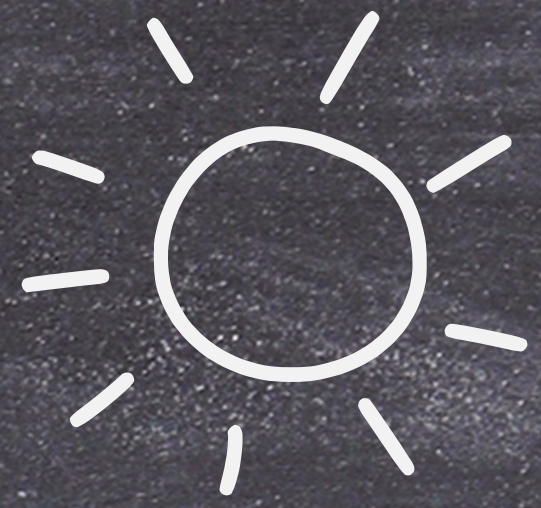

We also enjoyed some wet play outside. We pumped the paddling pools back up and Bonnie and her Mummy brought in some super soakers for us to cool the children down with! A lot of soaking wet, happy, cool children.
