

Dear Parents and Carers,

As you will be aware, we are busy preparing our Y6 children for the SATS tests which take place in the week beginning 11/5/26. Every year, we offer some additional after school booster classes for a small number of children. If your child has been invited to attend these you will have already received a letter giving you more information about this.

This year, I am pleased to say that we are able to extend our offer of after school SATS boosters to the whole of Y6. Mrs Howes and I will be running a series of drop-in sessions giving support with test technique and question answering in a variety of areas of maths. Please see the table below for more details of the focus of these sessions and the dates and times that they will run.

After school boosters are entirely optional and you may feel that your child does not need to attend these or you may have other commitments after school. Children can attend as many or as few sessions as you feel is appropriate. Children who have been invited to attend small group booster sessions may also attend these drop ins if you feel it is appropriate.

After the sessions, children can be collected from the school playground. Children who have permission on Arbor to walk home after school will be allowed to do this after the booster sessions.

There is no limit on places at these sessions, but booking will close on Friday 20<sup>th</sup> March so we can plan for the correct number of children. Bookings can be made through Arbor clubs.

Session Focus	Date and Time
Multiplication and division	Monday 23 <sup>rd</sup> March 3:30-4:15
Fractions calculations	Monday 13 <sup>th</sup> April 3:30-4:15
Fractions Problem Solving	Monday 20 <sup>th</sup> April 3:30-4:15
Worded Problems	Monday 27 <sup>th</sup> April 3:30-4:15

Please contact me at school or by emailing [brookes@wes.rklt.co.uk](mailto:brookes@wes.rklt.co.uk) if you have any questions about booster sessions.

Kind regards  
Suzanne Brooke  
Y5/6 Phase Leader
