

Western Primary Wider Curriculum Offer

Wider Curriculum Offer at Western

At Western we believe that our wider curriculum offer gives our pupils a richness of experiences beyond the academic curriculum. Through a range of the highest quality learning experiences within our Western community and beyond, we aim for all our pupils to become educated and responsible citizens who understand themselves, others and the world around them. Our offer includes a wide range of clubs, trips and visitors, events and opportunities to support local and global charities. As an Apple Distinguished School we aim to innovate with our use of technology and aim to use this technology within all aspects of our curriculum.

Educational trips and visitors are an integral part of our broad and balanced curriculum. We recognise the personal, social and physical benefits that these rich and purposeful experiences can bring our pupils. Each experience and opportunity has their personal development at its heart. We appreciate that these experiences can shape a young person and their well-being. We recognise that they can develop our pupils' self-confidence and positively influence their behaviour and relationships, whilst raising their attainment. These experiences bring learning to life and make it memorable, whilst developing key life skills such as resilience, reflection, confidence and compassion.

Our wider curriculum offer aims to develop the following attributes as well as embed our school values of Kindness, Honesty and Respect:

- Enjoyment
- Confidence
- Social awareness
- Environmental awareness
- Activity skills
- Personal qualities
- Key skills
- Health and fitness
- Increased motivation and appetite for learning
- Broadened horizons

(10 outcomes and themes from high quality outdoor education doc)
