

Green Room- What a lot of Learning!

The children have really enjoyed activities to help strengthen their fine motor skills such as pen disco, peg boards and developing scissor skills.

We have had a big focus on subitising, counting and number recognition this term. The children have enjoyed joining in group activities and maths activities out in provision.

In our chat times we continue to develop our love of reading; we have read a variety of books and are able to sit and listen intently to longer stories.

The children love to be outdoors, developing their gross motor skills.

They have also enjoyed a trip to Valley Gardens, although the weather wasn't on our side.

We have really enjoyed sensory play and have become confident explorers. It does get messy and is great fun!
