

## Turquoise Room Nursery

What a lot of learning this term...

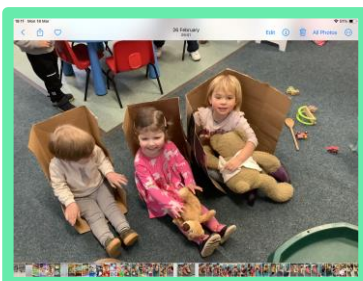

We have had lots of fun developing our gross motor skills. We are becoming skilful at using the equipment.

We have had lots of fun exploring using our senses. We have particularly enjoyed making marks on large trays with cornflour mix, paints and other materials.

We are now playing with each other a lot more and love creating buses and trains to sit on. There is some lovely cooperative play emerging.

We have been listening to traditional stories and the children have thoroughly enjoyed acting them out through play.

We have had so much fun dressing up this term and World Book Day was no exception.

We have also enjoyed more challenging puzzles and simple games to develop our maths skills.
