

Green Room- What a lot of Learning!

We enjoyed finding different ways to develop our fine motor skills, we have used scissors, felt tip pens, pencils and also made marks in glitter, cornflour and sand.

We have really enjoyed being creative this term, we have created some masterpieces, getting very messy along the way.

We celebrated world book day by dressing up as our favourite character from our favourite story. We love to listen and re-tell stories to our friends.

We have enjoyed baking buns and biscuits. We have helped to measure out the ingredients, we have waited for our turn to stir the mixture. We enjoyed tasting what we had made.

The children love to be outdoors, developing their gross motor skills.

We have built some brilliant obstacle courses. We love to play in the big playground, and we can now run really fast.
