

## RECEPTION OUR LEARNING SUMMER 1 WEEK 2

This week we have been looking at the life cycle of a Marigold flower; we have watched a time lapse video of a 45 day Marigold growing, from which we have discussed and drawn the life cycle of a Marigold. Earlier this year, Mrs. Russell (a school parent) very kindly donated Marigold seeds and plant pots, we have been planting these this week, to see the life cycle of a Marigold in real life.

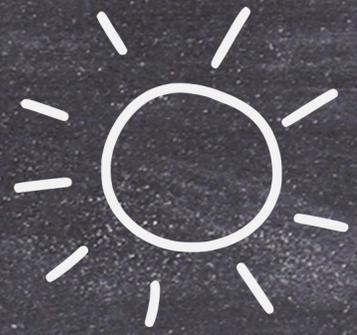

We have been enjoying the sunshine this week in our garden. We have used loose parts to trace around a chalk frog, used the large construction blocks to create houses, chairs and castles, as well as rolling balls down the wooden tracks.
