

This week in turquoise room we are talking about how important it is to be safe near the roads; this also led us into different types of vehicles.

In our sensory tray we popped some warm bubbly water, this helped us clean all of our cars and trucks, just like the car wash. We had fun using brushes to ensure they were all squeaky clean.

We moved some cars along a masking tape road, being careful not to go off the road. We also had a go at putting different vehicles together in puzzles. We could notice the colour difference between each of the vehicles. Well done.

We love to play outside, especially with the bikes and trikes. We had so much fun playing the stop and go game. We were able to take turns on the bikes and follow the instructions given.

In our creative area we enjoyed making marks with paint by rolling the cars in lots of brightly coloured paint, we noticed the different tyre marks each vehicle made. We also enjoyed using our funky fingers to make traffic light's. We know that red means stop and green means go, some of us remembered that yellow means get ready.

At chat times we listened to a stay safe story, and we had a chat about how important it is to be super careful near roads, we must hold onto an adult's hand and not run.

We enjoyed learning a new song called 'twinkle, twinkle traffic light', a very catchy song indeed.

As always, have a super weekend.
