GREEN ROOM OUR LEARNING
AUTUMN 1 WEEK 7

We have had a lovely time exploring the beautiful Valley Gardens on our autumn walk! The children enjoyed looking around and discovering the changes that autumn brings noticing the colourful leaves and natural surroundings. 🍁🍂

In the Green Room we have enjoyed a colour sorting activity using conkers and sorted them into different coloured bowls. This activity helped to develop their colour recognition, sorting skills and hand-eye coordination.

We have also been creative by making our very own autumn tree, using balloons to print beautiful leaves, the children dipped them into autumn colours. They loved dabbing the balloons onto the tree and watching the colour appear!
We have loved watching the children explore, discover and get creative.
We hope you all have a wonderful break! We look forward to welcoming you back after half term.
