

GREEN ROOM OUR LEARNING SUMMER 2 WEEK 3

Last week we based our activities on the story 'Bright Stanley'.

The children loved listening to the story and our favourite part was when Stanley needs to hide from the scary shark who was chasing him.

We decided that the scary shark was a tricky trickster! and when we were at home he came into our classroom and froze some smaller fish. We had to set them free by melting the ice. We used different methods to melt the ice, as we were so warm we found that using our hands was the best way. This also helped cool us down in the super-hot weather too.

In maths we had to add the octopus's suction cups so his tentacles, counting along the way. We also recapped on our knowledge of shapes and patterns using a peg board.

Our creative area was extremely busy; we made some amazing junk model boats using egg boxes, an awesome oyster shell, we popped a little pearl inside too, but our favourite creative activity was making our own 'bright Stanley'. We drew around our hand and added some super sparkly gems to make our fish shimmer and shine. A huge well-done guys!

Our group time activities consisted of a mixture of mark making, making a shape rocket, and also sorting objects that start with S from objects that don't.

We enjoyed lots of time in the glorious sunshine making mud pies, sandcastles and turning crates into boats to sail on our imaginary ocean.
