

GREEN ROOM OUR LEARNING SPRING 2 WEEK 6

In the last week of term we enjoyed activities based on both farms and Easter.

We loved playing in the role play area that continued to be a vets practice, we love to take care of poorly animals and help them to feel better again, using our wonderful imaginations.

In maths we looked at direction and position, we could understand and follow the instructions for positions inside, on top, under, next to and behind.

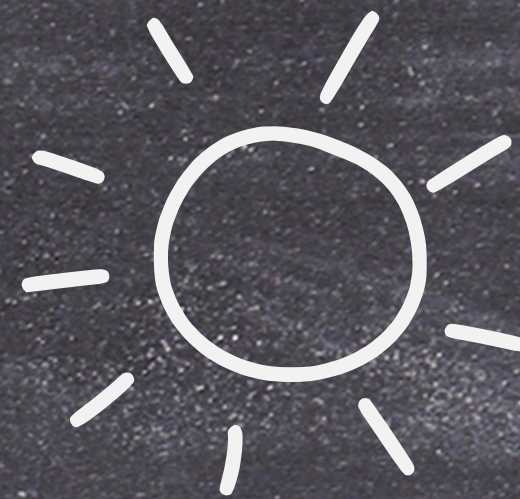

In our creative area we enjoyed lots of free painting, we love to mix colours and see what we can create. We also used our super scissor skills to snip out a chick. We had to cut it from an activity sheet and using gloopy glue and put it back together again. This activity used lots of skills such as listening, maintaining focus and following instructions.

As the weather was so beautiful, we celebrated Tatty the guinea pigs first birthday with a party in the garden. We sang happy birthday and showed off our super dance moves.

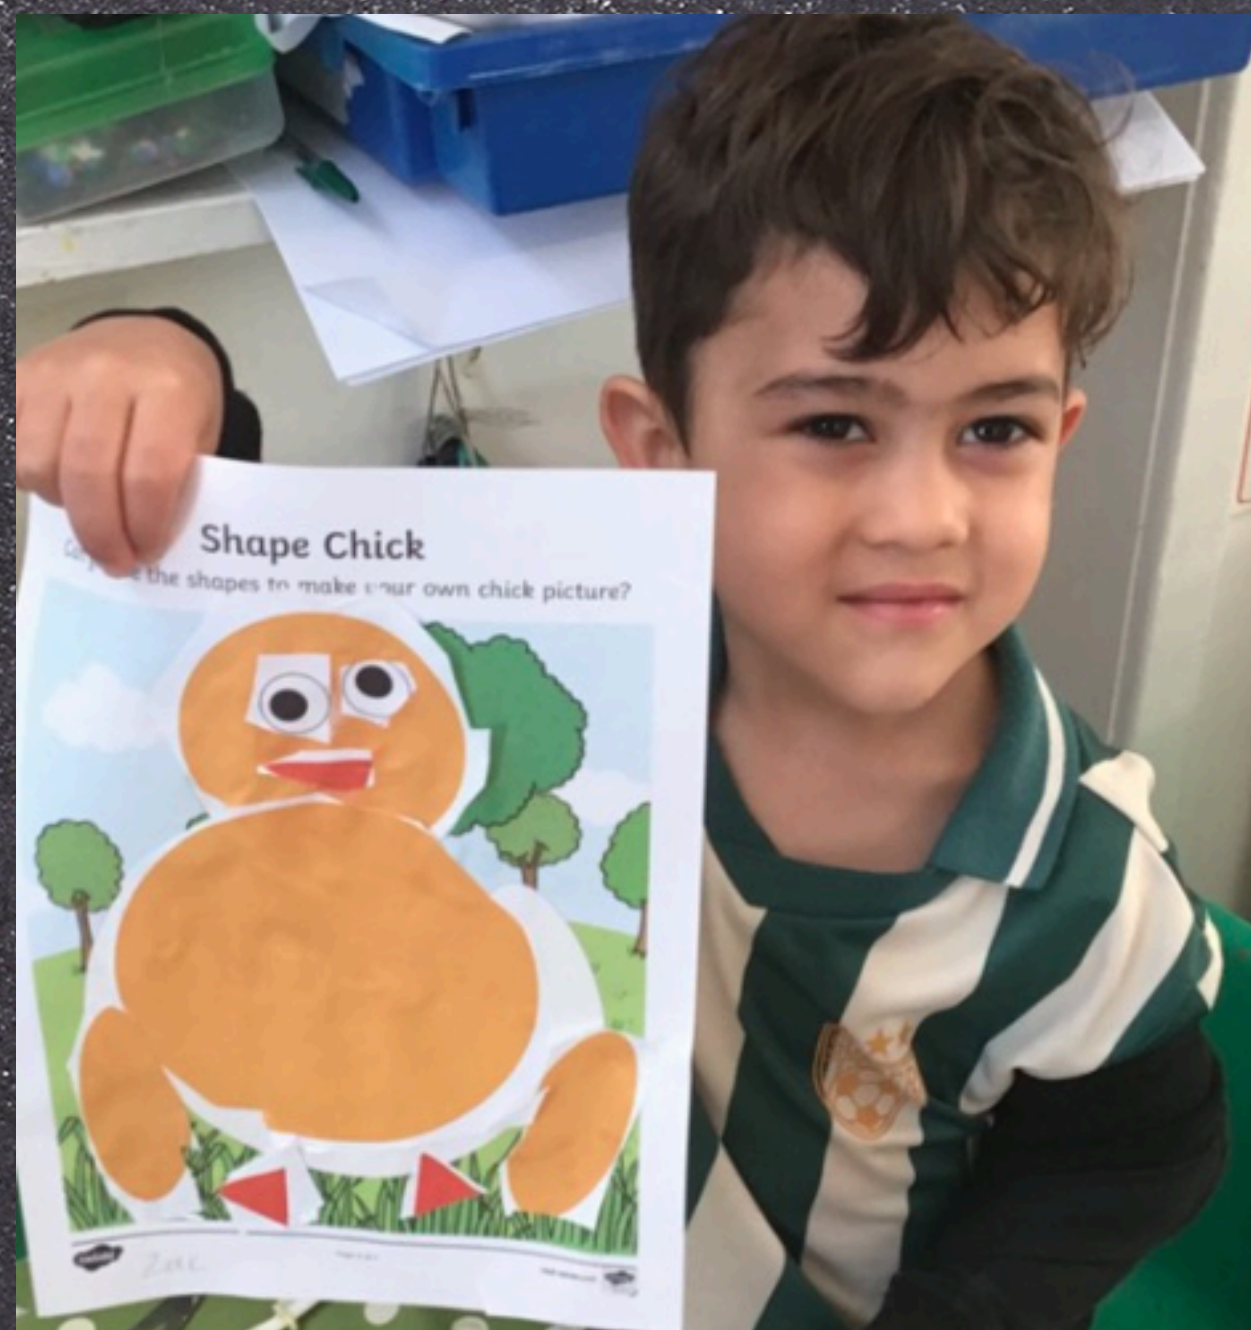

We ended our week by participating in our annual Easter bonnet parade. We did such a super job of showing all the adults our super Easter bunny ears that we had been busy making in Green room. We then enjoyed playing outside in the amazing bonnets that we had made at home, there were some wonderful designs.

We hope you all had a wonderful, memory filled Easter holiday.
