

GREEN ROOM OUR LEARNING AUTUMN 1 WEEK 8

We started this week by looking at Diwali and completing lots of lovely activities inspired by the celebrations. We've made lanterns and have been exploring in coloured rice.

We've then had a seriously super spooky week this week! The children have really got into the spooky spirit and have enjoyed a variety of activities. In funky fingers we have been pulling elastic bands over mini pumpkins. We have also added golf tees to pumpkins, carefully hammering in and putting sticks in the holes we make. We have been carving pumpkins and scooping all the insides. Spiders were trapped in the web and we had to rescue them with our tongs.

In Maths we have been adding spiders to five frames and noticing how many we have. We've counted out from an amount, counting the pumpkin seeds from the large.

We've been potion making, scooping and pouring the ingredients into bottles, talking about what magic each ingredients was going to do. We've followed ingredients to make slime and have made and sparkly playdough and enjoyed all the sensory play in the different textures.

We've enjoyed playing games like pass the pumpkin and have enjoyed dancing to spooky music.

What a first half term back. Have a wonderful and restful half term.
