

## YEAR TWO~ OUR LEARNING SUMMER 1 WEEK 2

This week in maths we have continued our work about fractions. The children have worked with a partner to divide a given amount into equal groups to show one quarter and one third. There has been some fantastic collaboration and discussion about how to find the fraction. The children have supported each other in their learning. Great work Year 2.

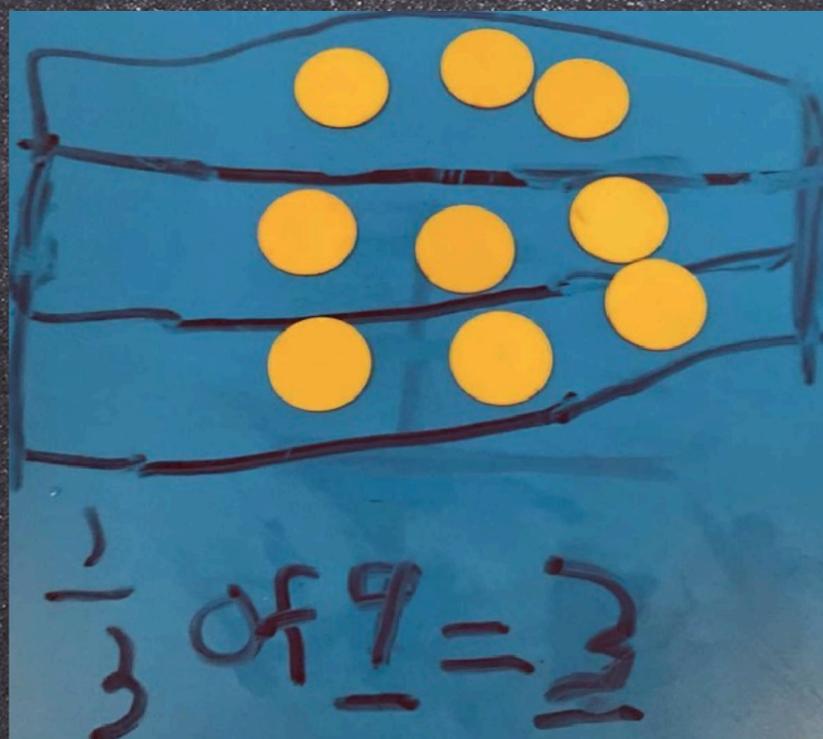

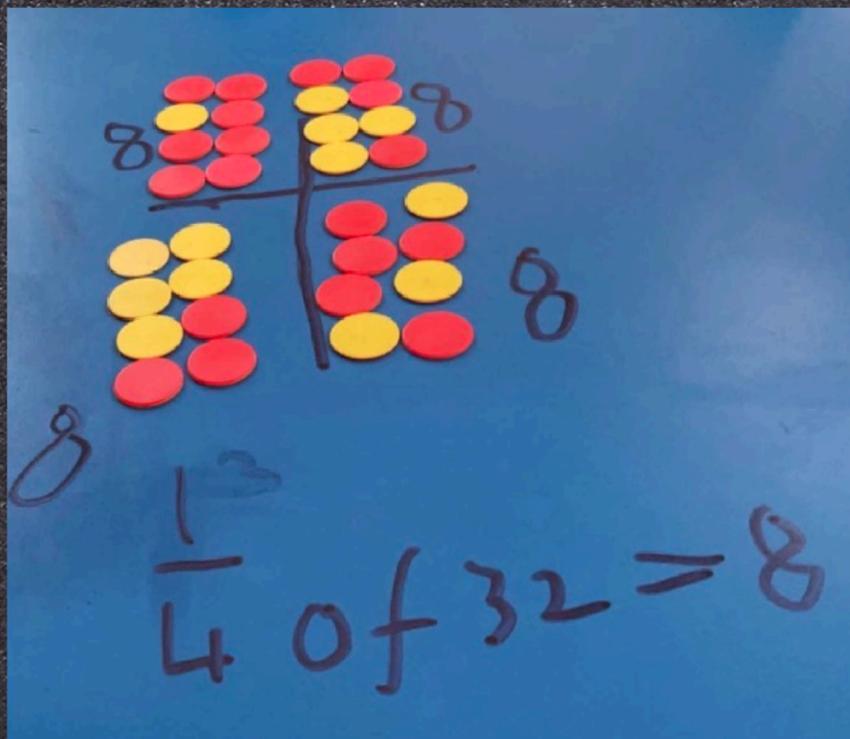

In geography we have been finding out about the 5 oceans of the world. The children enjoyed using the atlases to find where the different oceans were located. They found out which was the largest ocean and which was the smallest. We shared ideas about how the temperature of the oceans would be different depending on its location and which animals would live in these habitats.

We are building up to writing a story about a captain's adventure at sea in English. This week we have thought about problems and resolutions. The children have been very imaginative and we can tell their stories are going to be very exciting. We have stormy seas and shipwrecks, sea creatures climbing onto the ship and becoming lost at sea. The children have written some detailed sentences with fantastic vocabulary. We can't wait to share our completed stories with everyone.

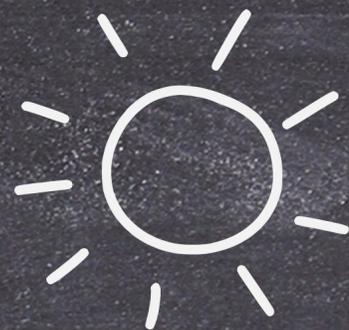

# YEAR TWO ~ OUR LEARNING SUMMER 1 WEEK 2

23.4.26  
Far out in the sea a captain gave  
instructions to his crew for today.  
Suddenly a giant loud crash!!! of  
lightning struck the wooden ship in  
half. Thick rain started to pitter down  
and a huge wave crashed on the  
boat. With made it tip over then  
they got washed up on a tropical  
desert island but suddenly a emergency  
boat came and saved them.

## YEAR TWO~ OUR LEARNING SUMMER 1 WEEK 2

23.4.26  
He got a huge crack in his boat because of the big choppy waves but his food fell out of the crack so he steered his ship as fast as he could to a little island to fix it. and when he was there, he noticed there was a watermelon tree so he grabbed onto it and sailed back home.
