

YEAR 3/4~ OUR LEARNING SPRING TERM 2 WEEK 6

It was a busy week during the last week of term in Year 3/ 4. We enjoyed an after school Paddington movie night and a fantastic trip to Eureka in Halifax. We also finished our Inventors topic, which we've really enjoyed. After exploring the science and history behind inventions like the TV, the internet and the mackintosh coat, we explained which inventions have been our favourites. Take a look below at some of our suggestions. What's your favoured invention of all time?

Lesson 6 To answer which British inventions most changed the world

The two best British inventions that changed the world are the internet and the telephone.

I pick the internet and the telephone because without the internet I can't play on my ipad and the telephone helps people connect with others.

Lesson 6. To answer which British inventions have changed the world

I believe that the two best inventions that have changed the world are:

TV because then you can watch tv shows.
It was invented by John Logie Baird.

The world wide web because you can see shows like the BBC. It was invented by Tim Berners-Lee.

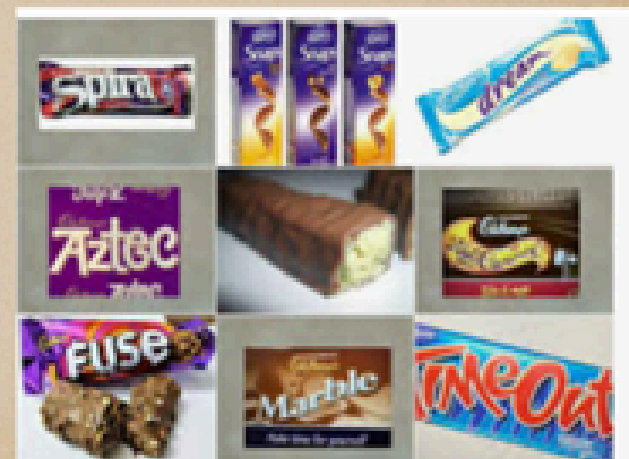

YEAR 3/4~ OUR LEARNING SPRING TERM 2 WEEK 6

Lesson 6: To answer which British inventions have changed the world.

I believe that the two best inventions are:
Chocolate bars - like time outs - because they are tasty and the
steam engine so we could travel faster.

YEAR 3/4~ OUR LEARNING SPRING TERM 2 WEEK 6

In the last week of last term, Miss Riddle and Mrs Collett's class completed their music sessions learning the recorders. They have been learning increasingly more complex pieces of music and reading and playing a range of notes. Very impressive!
