

YEAR ONE~ OUR LEARNING SUMMER 1 WEEK 2

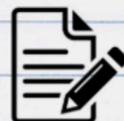

What another fantastic week of learning in Year 1! The children have continued their exciting journey into the world of dinosaurs across a range of subjects. In English, we have been enjoying reading *There's a T. Rex in Town*, which has helped us learn lots of fascinating facts about T. rex. The children have worked hard to create their very own fact files, practising a variety of sentence starters, using exclamation marks, and developing prosody to enhance their expression.

In Maths, we have been adding equal groups together and have been introduced to making arrays. The children showed great enthusiasm as they explored different ways to organise and represent numbers.

In Science, we have loved investigating animal teeth, learning about the differences between carnivores, omnivores, and herbivores. The children were fascinated to see how teeth are adapted for different diets.

In DT, we have begun creating our very own dinosaur eggs using balloons and paper mâché. We are looking forward to seeing the finished creations next week!
