

YEAR ONE~ OUR LEARNING SUMMER 2 WEEK 4

This week, Year 1 have been working incredibly hard despite the very warm weather! We have spent lots of time in the hall practising for our upcoming show, and the children have been amazing at remembering songs, actions and lines. If your child has speaking lines, these will be available on Showbie. Please continue to practise these at home. The children have coped exceptionally well in the heat, and we would like to thank you for your support. Please remember to send your child with a sun hat and apply sun cream before school on hot days.

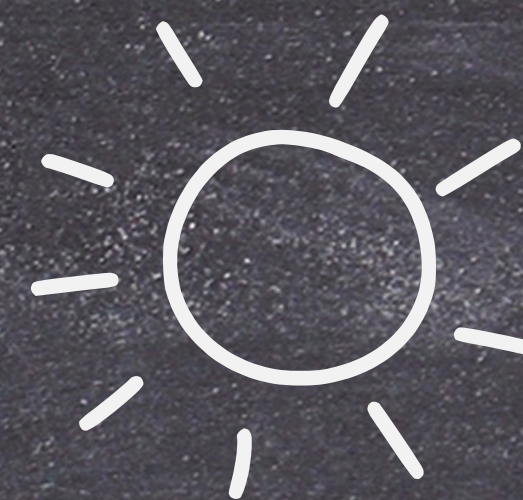

In Maths, we have been learning all about money. We have been recognising and sorting coins and notes, as well as practising counting different amounts using our classroom sets of money. The children have enjoyed using their knowledge in practical activities and games.

In English, we have completed our own African animal stories inspired by our learning about Africa. We have been so impressed by the children's creativity and the fantastic ideas they have included in their writing.

In Science, we have continued learning about animals and this week focused on birds. We explored their features, diets and habitats, and learned what makes birds unique compared to other animal groups.

Well done, Year 1, for another brilliant week of learning!
